Our Company Works In Partnership With **EPICO Pools** , An Company Dedicated To Design And Develop Swimming Pool Equipment And Accessories.

POOL TOP MOUNT SAND FILTER

Features:

- The fiberglass winding design enables the filter to be durable, deforming-proof and corrosion resistant
- A unique and advanced design ensures fast draining and stabilizes water flow.
- The 6-position multiport valve with a user friendly handle easily provides you a maximum flow at low pressure drop.
- The Sand filter comes with a precise pressure gauge.
- It is easy to install and to maintain.
- The Outlet turbidity is less than 2FTU.
- Working pressure is 2.5 Kg cm²/36 psi.
- UV resistance surface allows the filter to work under direct sunlight.
- Maximum operating temperature is 50°C.

POOL SIDE MOUNT SAND FILTER

Features:

- The fiberglass winding design enables the filter to be durable, deforming-proof and corrosion resistant.
- A unique and advanced design ensures fast draining and stabilizes water flow
- The 6-position multiport valve with a user friendly handle easily provides you a maximum flow at low pressure drop.
- The Sand filter comes with a precise pressure gauge.
- The Outlet turbidity is less than 2FTU.
- Working pressure is 2.5 Kg cm²/36 psi.
- UV resistance surface allows the filter to work under direct sunlight.
- Maximum operating temperature is 50°C.
- Smooth & High brightness appearance easy to clean.

SWIMMING POOL PIPELESS FILTER

Features:

- **Easy Installation:** These filters can be installed without the need for additional plumbing or piping, making them a hassle-free option.
- **Low Maintenance:** They require very little maintenance compared to traditional pool filters. The removable filter cartridge can be easily cleaned and replaced.
- **Energy-Efficient:** Pipeless filters are more energy-efficient as they do not require a separate pump to operate.
- **Environmentally Friendly:** They do not require chemicals or other harmful substances to operate, making them better for the environment.
- **High-Quality Materials:** Often made of high-quality acrylic with fiberglass reinforcement, ensuring durability and longevity.

COMMERCIAL SAND FILTER

Features:

- **High Flow Rates:** They can handle high flow rates, making them suitable for commercial pools with heavy usage.
- **Durable Construction:** Typically made from materials like fiberglass reinforced plastic (FRP) for long-lasting performance.
- **Efficient Filtration:** Utilizes high-quality sand as the filtration media to remove impurities, dirt, and debris from the water.
- **Backwash System:** Equipped with an efficient backwash system for easy maintenance and cleaning.
- **Customizable Options:** Available in various sizes and configurations to meet specific needs.

SWIMMING POOL GRATINGS

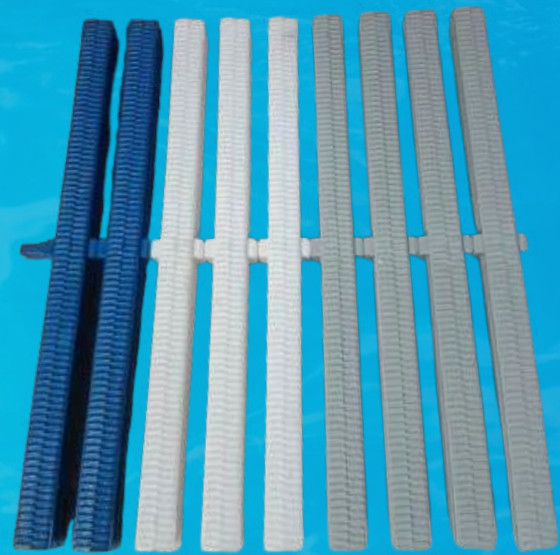

Single Pin Black Colour Grating

Two Pin Grating

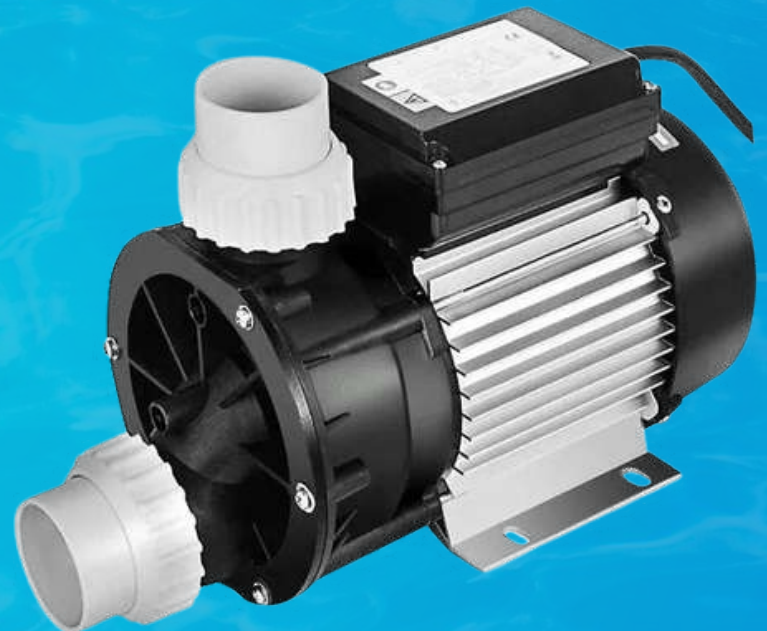

Three Pin Colourful Grating

Multi Colour Grating

SWIMMING POOL MOTOR PUMPS

- Pole induction motor Single-phase : 220-240/50Hz Single-phase with thermal protector
- Capacitor inset
- Insulation class F
- Protection IPX5
- Continuous duty
- Features
- Wet ends made of high reinforced engineering thermoplastic with compact structure and corrosive-resistance.
- 1.5 inch Inlet and Outlet
- High efficient structure design for diffuser and impeller to get higher performance
- No contact between motor shaft and liquid.
- Motor / Pump shaft has no contact with the water
- Continuous Operations
